Est. 2003

2004

0003.002.00

Highlights

Engineering Services –
SWMP necessary to
complete expansion

Project Cost

\$250,000 - Construction
\$1,200 - Consulting

Client

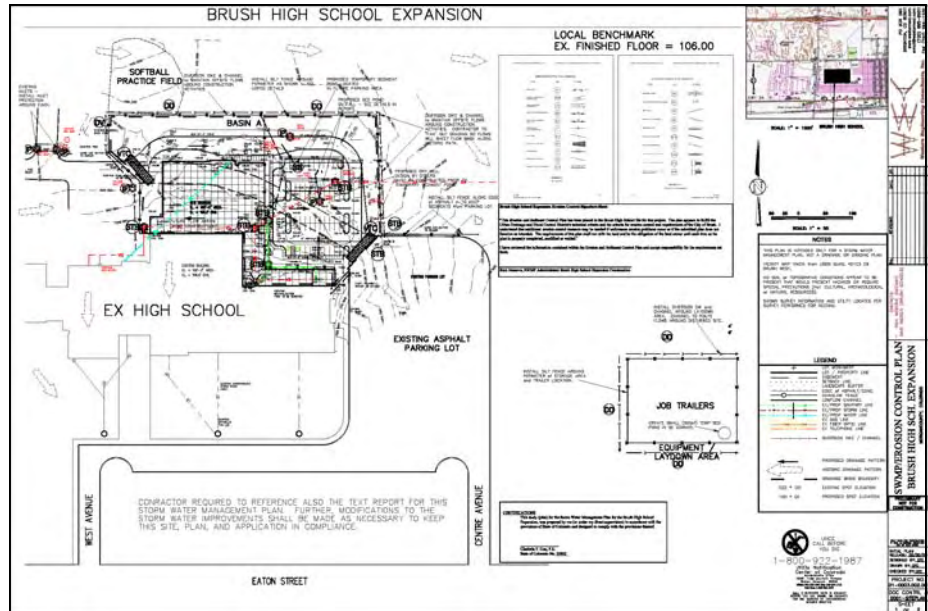

The Neenan Company

Project Description

Western Engineering Consultants, Inc. (WECI) was retained to provide Storm Water Management services for the Brush High School Expansion. A new auxiliary gym, weight room, wrestling room, restrooms, and supporting amenities in addition to a new parking lot and revised access necessitated a State Storm Water Management Plan and Report as required for State permitting. WECI provided the report and plan in a quick turnaround in order to keep the High School Expansion project on schedule.
